Megamart (SOW)

The Statement of Work(SOW) herein describes all discussed changes in last meeting on 2nd November 2021(Tuesday) which were highlighted as new changes.

Objectives

The objective of this document is to identify all required changes with their details and assure make them functional and available on website to the client within specified duration (Due to un-expected circumstances uncertain delay may occur).

Scope

Scope of this SOW (Statement of Work) is to complete all discussed as well mentioned below tasks and handover to the client for UAT (User Acceptance Test) via Megamart website.

All raised issues during UAT will be the part of this SOW agreement will be resolved under this agreement.

Once UAT is completed successfully for the mentioned below (In Task section) all completed changes will be deployed on client public domain (Url) for end user usage, as long as UAT is not completed website cannot be deployed on public domain (Url)

Tasks

Below are all discussed tasks which will be the part of this SOW (Statement of Work) agreement.

- 1) Admin can OFF/ON email verification
If setting is OFF and user completed SIGN UP successfully it will redirect user to the SIGN IN screen
If setting is ON and user completed SIGN UP successfully it will redirect user to a new page where email verification message will be showing

Verify your email

A verification email has been sent to your email please look into your email inbox

- 2) Show User profile reviews and should be clickable which will redirect user to show/view total reviews in grid
- 3) Show User profile rating and should be clickable which will redirect user to show/view total reviews in grid
- 4) Total number of visitor to the user profile - Count of visits will be showing
- 5) When user SIGN UP a custom sequence should be generated called TrackingID will be showing on user profile. Also admin can search in all three user's grids by TrackingID
- 6) There must be a field for "Unit of the Product" for example Piece, Feet, Sq feet, Bag, kg etc. It will help the user to select the price as per unite; e.g price/feet or price/

bag etc.

A screen will be given where admin can add, edit and delete units

All available Unit dropdown lists will be populating dynamically from admin added Units

- 7) Number of Free Members. It must be clickable and led to show total free members
- 8) Number of Silver Members. It must be clickable and led to show total silver members
- 9) Number of Silver Members. It must be clickable and led to show total silver members
- 10) Number of Platinum Members. It must be clickable and led to show total platinum members
- 11) Add Joining Date (From - To) search to users all grids
- 12) Export excels, export pdf and send email option is missing
- 13) Packages are required completely dynamic where admin can increase decrease package validity duration
Can add remove features
Can add remove package in between(Free, Silver, Gold and Platinum)
Note: Packages features must be one time defined with their usage
- 14) Package Subscription
When user clicks on Subscribe a popup will be showing which will ask user to upload voucher/receipt for the payment he has made
On save Subscribed users list will be showing to admin where he can download and confirm payment receipt and confirm user once confirmed by admin user will leverage a package feature(Will be implemented from back-end dynamically)
Email Reminder on Package expire, As package can be expired after the completion of decided time(1 year, 6 months etc) this time will be defined in Packages defined in above point#13
- 15) Who you are? - Field should be dynamic
Will provide a screen to the admin where admin can add, edit and delete values
- 16) Multiple pictures can be added Breadcrumb from Settings
- 17) Manager Role is missing
In last meeting on 2nd November 2021(Tuesday) client has agreed on adding single Manager Role/User who can manage Application
- 18) Terms & conditions is missing
Will be dynamic where admin can add/update show and hide to the users(Registered users)
- 19) In user profile at bottom similar companies slider should be shown
For example I searched for glass then clicked on Profile view from any company at bottom glass dealing company slider should be shown

Expected Completion Days	Sixty days
Total Cost	Sixty thousands Pkr
